	Views received from Governments in accordance with paragraphs 5 (c) and 6 (b) of General Assembly resolution 62/13		124

I. Introduction

1. The General Assembly, in operative paragraph 1 of its resolution 62/13, inter alia, called upon all Member States to report annually, by 30 April, to the Secretary-General their military expenditures for the latest fiscal year for which data were available, using, preferably and to the extent possible, the reporting instrument as recommended in its resolution 35/142 B or, as appropriate, any other format developed in conjunction with similar reporting on military expenditures to other international or regional organizations, and encouraged Member States to submit nil returns, if appropriate.

2. In operative paragraphs 5 (b), (g) and (h), respectively, of resolution 62/13, the General Assembly requested the Secretary-General, within available resources, to circulate annually the reports on military expenditures as received from Member States; to promote international and regional/subregional symposiums and training seminars to explain the purpose of the United Nations standardized reporting system of military expenditures and to give relevant technical instructions; and to report on experiences gained during such symposiums and training seminars.

3. On 6 February 2008, a note verbale was sent to Member States requesting them to submit their reports no later than 30 April 2008. The replies received are reproduced in section III below. Additional replies received from Member States will be issued as addenda to the present report.

II. Action taken

4. Owing to the limited availability of extrabudgetary assistance, the Office for Disarmament Affairs was unable to organize seminars and/or workshops to enhance familiarity with and encourage greater participation in the United Nations Standardized Instrument for Reporting Military Expenditures.

III. Replies received from Governments

Japan

[Original: English]
[30 April 2008]

Japan would like to propose adding a column under the heading "Defence expenditures to gross domestic product ratio" to the report format, which will enable us to calculate the ratio of defence-related costs in relation to expenditures such as those of development, and would add value to the system as a confidence-building measure.
